

PUBLIC MEETING

Lady's Island Corridor Plan
Beaufort, South Carolina

September 29, 2016

STUDY BACKGROUND AND PURPOSE

The City of Beaufort, in cooperation with Beaufort County, is pleased to have you attend this public meeting on the Lady's Island Corridor Plan. The purpose of this study is to determine the best options for improving the main roadways on Lady's Island: US 21 Business / US 21 Sea Island Parkway, US 21 Lady's Island Drive, and SC 802 Sams Point Road. The meeting will begin with a formal presentation describing the study corridors and current traffic concerns. Following the presentation, there will be informal discussions with project representatives available to answer any questions you may have.

On the back of this page is a map showing the study limits for your reference. Staped to this letter is a comment card. We encourage you to provide your comments by one of the following methods:

- **Complete the comment form attached and leave it in the drop box located here in the theatre**
- **Have your verbal comments recorded at this meeting**
- **Mail your comments by October 7, 2016, to the address shown on the comment form**

AFTER TODAY'S MEETING

Based on feedback from this meeting and engineering evaluations, the study will be performed. Concept plans will be developed to demonstrate the recommended improvements. The study will be prepared by Stantec Consulting and Ward Edwards Engineering, the City's consultant engineering firms. Once conceptual designs are completed, a second public meeting will be scheduled to share with the public.

We thank you for your attendance and participation.
